ABOUT ME

As a recent ICT graduate, I'm dedicated to leveraging technology for practical solutions and innovation. Proficient in Java, Python, and JavaScript, with hands-on experience in React.js and Node.js, I'm eager to excel in software development. With strong analytical skills and a collaborative spirit, I thrive in dynamic environments, contributing to cross-functional teams. Committed to continuous learning and growth, I aim to tackle complex challenges and drive impactful solutions in the tech industry. Passionate about emerging technologies, hackathons, and open-source contributions, I'm ready to make a meaningful impact.

EDUCATION

B.Sc(Engg)in ICT | Mawlana Bhasani Science and Teachnology University

📅 February 2019 – May 2024   📍 Tangail, Bangladesh
- CGPA: 3.30

H.S.C | Naogaon Govt College

📅 2015 – 2017   📍 Naogaon, Bangladesh
- GPA: 5.00

PROJECTS

Task Management | ⬡ | 🌐

its a task mange application using **Node.js Express.js** and **MongoDB** for database.I also use **route** for api routing in backend,**dotenv** package,**jwt-token** for authentication,multiple **javascript** code and use **postman** for backend run this file. I use **React** as frontend and also use **React-Redux**, **Bootstarp**, **React-Icon** and **CSS**,and black-Javascript

E-commerce | ⬡ | 🌐

Its a **react** based application.delvelop via using **react**,**javascript**,**es6**,**node.js**.There I use **bootstarp** for design the site.I also use **react-routing** for multiple routing. user can buy thing online from it

To do app via using**React redux**.There I use **React** as **framework** And **Bootstarp** for **Css**.I use multiple **javascript** function for complete this site. just for primary use

Inventory-Management | ⬡ | 🌐

its a MERN based application using **Node.js, Express.js, React,** and **MongoDB** for database.I also use **route** for api routing in backend,**dotenv** package,**jwt-token** for authentication,multiple **javascript** code and use **postman** for run this file
